

CHURCH PEOPLE PROTEST

To the Public:

The ladies of the Methodist Episcopal Church feel incensed at the uncalculated and unjust remarks of Judge Gear, as reported in the Commercial Advertiser, the 12th inst., wherein he insinuates that gambling features will be introduced at their fair to be given next week. It is a well known fact that the Methodist Episcopal Church takes a pronounced stand against gambling in all its features, and discountenances all that has even the semblance of a "game of chance." We believe that our local society has never violated this law and sentiment of our church. The articles we will offer for sale are largely our own handiwork. They will be marked in plain figures and sold at a reasonable profit.

MRS. EMMA DEMROSE,
Sec'y Ladies' Aid Society.

Honolulu, Nov. 12, 1901.

Editor Advertiser:—If Judge Gear really used the language attributed to him in your columns this morning, where, in passing sentence on two Chinese gamblers who had pleaded guilty of playing che fa, he is quoted as saying, "I believe that a good many more of the same kind could be convicted if the police went to the church fair to be held here next week," his remark was the offshoot either of gross ignorance or designing misinformation, or else his honor is guilty of a slander ill-becoming one occupying his exalted position, and unless some plausible explanation is forthcoming, or gentlemanly retraction be made, he deserves to have visited upon him the censure of the entire Christian and moral community.

That the Methodist people are the ones directly assailed by the natural inference, since theirs is the only "church fair" to be held here next week," so far as public announcements go. But fortunately, it is generally known that the Methodists, of all people, are most careful to avoid the appearance of gambling at their church entertainments, they even going so far as to place a taboo on all such things as grab-bags, raffles, voting contests, etc., which by many people are considered as innocent amusements. This being true, it is hard to understand what prompted such an uncalculated and unjust trade from the Circuit bench just at this time.

It is not believed that Judge Gear is lacking in gentlemanly instincts, and doubtless when he finds that he has carelessly slandered innocent people, he will hasten to make proper amends. In the meantime his Honor will be provided with tickets to the fair to be given by the ladies of the Methodist Church at Hahaione lawn on Thursday of next week, and invited to come and see for himself "whether these things be true"—but let him take warning that he can't get into a "55 jackpot game" on that occasion.

PUTNAM'S HEALTH PILLS

A Boon to People Living in Tropical Countries.

No white people are natives of tropical countries. Many physicians claim the tropics unsuitable for the white race. Why? Because the climate is enervating. You get run down, the liver becomes sluggish, the blood is impoverished, boils and pimples break out, you are nervous and irritable, and a general feeling of being "out of sorts." Putnam's Health Pills are made especially for this class of ailment. They wake up a sluggish liver; they make rich red blood; they remove that languid feeling, and tone up the whole system. There isn't the least question of their being the best tonic pill in the world. If they don't benefit you, your money back. Therefore, with such a guarantee, why delay the treatment? Get them today and receive the benefit they will afford at once.
